

MULCAHY ENVIRONMENTAL POLICY

We run an environmentally responsible business through:

Commitment

Having sustainable business practices from strategic planning through to our everyday daily actions.

Awareness

Understanding the impact we have on our environment and how we can make improvements.

Education

Educating and training our staff on environmental best practices for our industry to make it happen.

Involvement

Encouraging staff initiatives to improve our resource use and waste management through “reduce, reuse and recycle”.

Prevention

Stop environmental incidents and pollution before they happen by managing activities with environmental risks.

Improvement

Continually reviewing and improving our environmental performance from targeted initiatives to companywide policies.

Kayne Mulcahy
